TULIP FORCING

Use a 5-inch pot for 3 to 5 bulbs; a 6-inch pot for 5 to 6 bulbs, or an 8-inch pot for 8 to 10 bulbs.

Average garden soil mixed with leaf-mold or thoroughly rotted cow manure is well adapted to tulip forcing. If the mixture is not friable add sand. Make plantings September to November for succession of blooms.

Place coarse material such as broken pots or gravel in the bottom of the pots to insure ample drainage, then fill pots about ¾ full of soil. Do not pack. Place bulbs and press down until the tops are about ¾-inch below the top level of the pot, finish filling with soil and work firmly around bulbs. The top of bulbs should be covered. When planting has been completed enough space should remain between the soil and top of pot for watering. Water thoroughly. At least six weeks should elapse before the bulbs are ready to be taken indoors. The pots should be stored in a cold-frame, underneath shrubbery or beside a wall and covered with straw or similar material to a depth of about 6 or 8 inches.

If stored outside rains will generally keep the soil moist. Care should be taken to see that it does not become dry. As soon as good root systems have developed and the tops show color they are ready to be carried indoors. Place pots in a cool room for several days, later transferring them to a temperature of about 65°F. Keep water on heating units and elsewhere to maintain humidity which is very essential. Prevent freezing.

High and fluctuating temperatures, dry air, insufficient light and too much or too little water are detrimental. Avoid strong sunlight. A light, airy, humid room with a mild temperature should prove ideal.

Carefully kept notes as to date planted, soil used, length of rooting period, temperature, etc., will be of considerable value in future plantings.

Lilies—mysteriously appealing, exotic—beautiful—fragrant. —Bulbs from three continents

CULTURE — Lilies generally dislike lime, must have ample moisture but must be well drained. Regardless of the depth at which the variety is planted the soil should be deep, rich, loamy and rather gritty than stiff clay. Avoid full sun and too dense shade. The ideal situation for Lilies being in the perennial or shrub border where the lower parts of the plants are shaded while the top of the plants and flowers have access to ample air and light. Avoid ordinary manure which may cause the bulbs to rot, using Peat Moss and Sheep Manure mixed well into the bed.

Wyatts Carolina
LAWN GRASS MIXTURE

F-60. WYATT'S CAROLINA mixture of lawn grass seeds is an improvement on all of the better mixtures offered heretofore, at comparative prices. Our constant experiments have taught us just what grasses are best suited to the Eastern and Southern states. The finest seeds of these varieties are carefully recleaned and blended into our Carolina mixture so as to give the very best results obtainable. Sow 5 lbs. per 1,000 sq. ft. **Prices: Lb. 45c; 5 lbs. $2.00; 10 lbs. $3.50; 25 lbs. $8.00; 100 lbs. or more at 30c per lb., prepaid.**

Wyatts Colonial
LAWN GRASS MIXTURE

F-58. WYATT'S COLONIAL MIXTURE—The continued demand for a mixture of the finer leaved grasses has led us to prepare this **Colonial** mixture consisting largely of the best varieties of bents and fescues. While the price per pound is higher only a fraction of the quantity required of other grasses is required of the **Colonial** mixture, leaving very little if any difference in the total cost for seeding. Once the lawn is seeded to these grasses of vastly superior beauty, all other varieties will be discarded. Use 2 lbs. per 1,000 sq. ft. **Prices: Lb. $1.25; 2 lbs. $2.25; 5 lbs. $5.25; 10 lbs. $10; 25 lbs. or more at 95c per lb., prepaid.**

Wyatts Sunny South
LAWN GRASS MIXTURE

F-59. WYATT'S SUNNY SOUTH MIXTURE—For lighter soils and soils that become extremely dry, and in locations subjected to extreme heat during the summer months **Wyatt's Sunny South** mixture of lawn grasses is recommended. The grass varieties used on golf greens over the entire south predominate this mixture. Only the purest stocks are used. Sow 5 lbs. per 1,000 sq. ft. **Prices: Lb. 45c; 5 lbs. $2.00; 10 lbs. $3.50; 25 lbs. $8.00; 100 lbs. or more at 30c per lb., prepaid.**

Wyatts Shady Nook
LAWN GRASS MIXTURE

F-61. WYATT'S SHADY NOOK LAWN GRASS—A carefully blended mixture of grasses best adapted to shaded situations. Use 5 lbs. per 1,000 sq. ft. Where the soil is acid from poor drainage or drippings from trees, occasional applications of agricultural lime should be made at the rate of 5 to 6 pounds per 100 sq. ft. **Prces: Lb. 45c; 5 lbs. $2.00; 10 lbs. $3.50; 25 lbs. $8.00; 100 lbs. or more at 30c per lb., prepaid.**

OTHER GRASSES and CLOVER for LAWNS

For lawn work we select and offer only the purest seeds obtainable. **Prices: Lb. 45c; 5 lbs. $2.00; 10 lbs. $3.50; 25 lbs. $8.00; 100 lbs. or more at 30c per lb.**

F-43. ITALIAN RYE GRASS—Generally referred to as "Winter Grass" in the south where it is grown extensively for winter lawns. It will grow in any soil from early September till June. F-80. WYATT'S FANCY WHITE DUTCH CLOVER—Our carefully grown Fancy White Dutch Clover is produced especially for lawns. F-79. KENTISH WILD WHITE CLOVER—A dwarf spreading and unusually rugged clover especially adapted to lawns and athletic fields. **Prices: Lb. $1.75; 5 lbs. $7.50, postpaid. Write for Quantity prices.**

CANADIAN PEAT

For new lawns 1 bale should be thoroughly pulverized and mixed in each 300 sq. ft. of lawn area. Nothing is so beneficial to establish lawns as a bale of peat mixed with 100 pounds of Vigoro or Sheep Manure applied to each 2,000 sq. ft. 3 or 4 times each summer. Peat should also be used liberally in gardens, flower beds and borders, and as a mulch for shrubbery, because of its capacity to hold moisture. **Prices: Large bale $3.85. Not prepaid.**

WIZARD SHEEP MANURE

Best of all natural manures, highly concentrated, free from straw and rubbish, with all weed seeds killed. It puts new life into worn out soils.

For lawns use 6 to 10 lbs. to every 100 square feet. For vegetable or flower gardens use 10 to 15 lbs. to every 100 square feet. **Prices: 5 lbs. 35c; 10 lbs. 60c; 25 lbs. $1.00; 50 lbs. $1.50; 100 lbs. $2.75; 500 lbs. $13.00; Ton $47.50. Not prepaid.**

RAW BONE MEAL

Excellent for rose beds, flower beds, garden and field crops, and for top-dressing lawns. **Prices: 5 lbs. 25c; 10 lbs. 50c; 25 lbs. $1.00; 100 lbs. $3.25; 200 lbs. $6.25. Not prepaid.**

A D C O

Converts grass clippings, weeds, leaves and other non-woody matter into valuable compost. **7½ lb. box $1.00; 25 lb. bag (enough for 20 wheelbarrows of debris) $2.00; 150 lb. bag $10.00.**
